Inkjet Printer (HP 5500) :

The HP Designjet 5500 series printers turn around ready-to-sell-and-distribute prints at some of the fastest speeds available - without compromising image quality. With HP's intelligent printing solutions, print service providers, GIS professionals, and graphics designers will benefit from a simplified workflow, unattended operation, and flexible options that will give them better results.

Inkjet Printing on photo glossy, Satin, Cloth, Translite, Vinyl, Lamination, Mounting & more...

Mimaki J.V. 5 (Eco Solvent)

The Mimaki JV5-160S and the 54" Version, the JV5-130S are the next generation of Mimaki Printers! These new generation wide format solvent inkjet printers employ newly developed print heads. The JV5 series provides an ultra-high print speed of 430sq.ft/hr at a high quality resolution of 540x1080dpi.

Vutek 8 Colour (Solvent Flex)

In addition to our 126" wide Vutek eight-color grand format printer, Cutting Edge has added a new 126" NUR Fresco HiQ8 eight-color digital printer which allows for unprecedented image quality at incredible printing speeds. Atop the digital images a vulcanized clear liquid laminate is applied to every graphic, giving incredible durability and 3 year outdoor color-fastness.

Luscher Swiss CTP

We have acquired a Swiss CTP system Luscher, Xpose! UV conventional for digital imaging printing plates. Maximum plate size is 1680 x 1370 mm, minimum size is 540 x 380 mm, and available plate thickness ranges from 0.15 - 0.5 mm to 0.25 - 0.5 mm This platesetter uses 64 laser diodes, emitting monochromatic blue light beams with 405 nm wavelength. Imaging resolution is 2400-3600 dpi.

Katana 5055 (High-end Imagesetter)

The KATANA Outputs repeatability at amazing speeds, making it among the fastest imagesetters in the world. it outputs on several types of media, including film, paper, and flexible plates with superior registration accuracy.

Imging Area : 575 (22.6"x90"), High Speed.

High Quality System & Equipments

Equipped with high quality equipments to provide you the best quality output & timely services. We have leading name in Digital printing & processing line from the last decades & famous for carrying very big time bound jobs.

Drum Scanning

Scanning with the Ce'zanne Elite is approximately twice as fast as our previous model, ensuring dramatic increases in productivity. The latest Colour Genius Ex image processing software combines an even easier to use GUI with new functions that make achieving superior output supremely easy.

Cezanne Elite (Dianippon Screen Scanner)
Imaging Area : A/3 + (13"x21")
